

FACT SHEET

Company Name: Hach Company (pronounced “hawk”)

Website: www.hach.com

Founder: Clifford and Kathryn Hach of Ames, Iowa, in 1947.

Owner: Hach became a wholly owned subsidiary of Danaher Corporation (DHR), a fortune 500 leader, in 1999.

Description:

Hach Company manufactures and distributes analytical instruments and reagents used to test the quality of water and other liquids. Hach systems are designed to simplify analysis, and offer:

- Complete, easy-to-follow methods
- High-quality prepared reagents
- Accurate portable, laboratory and online instrumentation
- Life-time technical support

About Hach:

Since 1947, Hach has manufactured and distributed analytical instruments, test kits, and reagents for testing the quality of water and aqueous solutions, with products for lab, process, and field. Products are designed specifically for quality, accuracy, and simplicity, and today are in use around the world.

Hach U.S. Facilities:

Hach’s global headquarters in Loveland, Colo., employs over 500 employees and houses research and development laboratories, instrument manufacturing operations, and the Hach Technical Training Center. Another 300 Hach employees work at Hach’s facility in Ames, Iowa, manufacturing and packaging all of Hach’s chemical reagents and test kits, and filling customer orders from the main warehouse. Advanced electronic information systems help Hach to pick, pack, and ship hundreds of orders throughout the world every day.
